Emerging Trends and Innovations in Dispute Resolution

March 30th, 2023 | 18.30 SGT

Dispute resolution has gained renewed attention since the COVID-19 pandemic started. This event will see our panel of experts examining the trends and advancements in dispute resolution that took place in 2022 and anticipate what is yet to come. The panelists will also highlight the important changes in the recently updated ICDR Arbitration and Mediation Rules, with a specific emphasis on mediation. The panel will highlight the importance of staying up-to-date with the latest developments in dispute resolution and the role that education and training can play in promoting the growth of the field.

The speakers will discuss the benefits of the online case management system and its role in promoting more environmentally friendly arbitrations. The panel will address the challenges associated with the use of technology in dispute resolution, including issues of cybersecurity, data privacy, and fairness and will explore the measures to overcome these challenges.

Finally, the panel will discuss how COVID-19 has accelerated the adoption of online dispute resolution and the need for more flexible and accessible dispute resolution mechanisms like the hybrid hearing system which is being embraced by arbitral institutions.
