## What previous participants had to say

*"Always delivered with flair and good humour, I found the Applied Arbitration Course for Fellows to be both rigorous and immersive, giving me an authentic arbitration experience that far exceeded my expectations. I was particularly impressed by the careful efforts made by the training team to tailor the tuition and feedback that suited each student's individual experience and needs. Also most helpful was the access I had to experienced practising arbitrators, enabling me to develop an arbitration network. I thoroughly recommend this exceptional course to anyone seeking to advance themselves in the world of international arbitration."*

*"The Applied Arbitration course provides a rare opportunity to deal with practical issues in arbitration as a sitting arbitrator. This type of experience is invaluable and an excellent next step and complement to the theoretical training that Fellows would have already received."*

## For future FCiarb participants

*"One thing I wish I had known before the course is the importance of collaboration with your tribunal team members. I would have found time to get to know my fellow tribunal team members before the first session as then collective decision making would have been more effective throughout."*

*"One thing I wish I had known [was to] Focus on the practical training, this is the real value of the course. The theoretical points that come up are interesting and useful but can always be researched and learned separately, there is no way to replicate the practical experience of sitting as an arbitrator."*
